

## My Country Girl

1. Cities full of that empty life...  
Idle kids and a missin' wife  
Self's the center and looks the game  
It goes by fast and it goes by lame...
2. But in the country is my pearl  
My livin' doll, this country girl  
Smilin' big and lovin' strong  
With her I found I can't go wrong
3. City girls, they "shore look so fine", but...  
They'll teach you quick to walk the line  
But in them hills so far away  
Is my true love, who's mine to stay
4. The fun we have is "out of sight"  
'Cause life with her is pure delight  
And in her heart there ain't no wrong  
She's my own livin' country song
5. When all them lights they fade away  
And fancy stuff it just won't stay  
I'm glad to say she still will care  
My country girl will still be there

Chorus:       Li'l country girl, li'l country light...  
                  Early momin' til late at night  
                  She's workin' hard and lovin' long  
                  With her I found I can't go wrong...
